How we use your information

Who we are

The St Christopher Health Fund (the Fund) is a mutual aid society operated for the benefit of Bank staff and pensioners. It is independent of the Bank and Bank management and receives no financial support from the Bank.

The Fund is run by a Committee comprising serving staff and pensioners and operated in conformity with the Rules of the Fund which are approved by its members.

For the purposes of data protection legislation, the Fund is known as the 'data controller'.

Information we process

The Fund holds personal data about its members. This personal data is normally information which members provide to the Fund in respect of their membership or to make a claim. This includes contact details, medical information and bank details and anything else relevant to membership.

Why we need your personal data

We collect personal data in order to provide members with the benefits they become eligible for when they join the Fund.

What we do with your personal data

We use member data to process any claims made upon the Fund and to analyse the claims profile of the Fund. In addition, we are required to make our files available to the Fund's Auditors annually and may need to share information with other third parties as may be necessary for administrative purposes.

The Fund reviews the personal data held in relation to the Fund on a regular basis. If we conclude that certain personal data is no longer needed, that personal data will generally be destroyed in line with the criteria set out in the administrative processes of the Fund.

Your rights

You have a number of rights under data protection laws. For example, you have the right to ask us for a copy of the personal data the Fund holds about you. This is known as a 'Subject Access Request'. You can ask us to change how we process or deal with your personal data, and you may also have the right in some circumstances to have your personal data amended or deleted.
